Analyzibg and Visualizing WeRateDogs Dataset after Wrangling process

March 12, 2019

by - Piramanayagam S

0.1 Introduction

We Rate Dogs is a famous twitter account which took the internet by storm in 2016

WeRateDogs is a twitter account that rates people's dogs with a humorous comment about the dog. It was started in 2015 by a college student Matt Nelson, and has received international media coverage both for its popularity and for the attention drawn to social media copyright law when it was suspended by Twitter.

Over the course of two years, creator and curator Matt Nelson has build an empire out of being the internet's go to dog rater. Nelson bestows rarely high rating on a 1-10 scale,almost all of his rating are higher than 10

WeRateDogs started from a humble beginnings , he claims the idea was hatched at an Applebee's in 2015 and became an instant success. As of March 2019 has 7.84 million followers.

WeRateDogs downloaded their Twitter archive and sent it to Udacity via email exclusively for us.

Additional gathering and assessing and cleaning was required to present this analyses and visualizations.
